

Quadrilaterals	all equal sides	2 pairs equal sides (opposite)	2 pairs equal sides (adjacent)	1 pair parallel sides	2 pair parallel sides			
Square								
Rectangle								
Parallelogram								
Rhombus								
Kite								
Trapezoid								

Quadrilaterals	all equal (right) angles	2 pairs equal angles (opposite)	1 pairs equal angles (opposite)	2 pair supplementary angles (adjacent)			
Square							
Rectangle							
Parallelogram							
Rhombus							
Kite							
Trapezoid							

Quadrilaterals	diagonals are equal length	diagonals bisect each other	both diagonals bisect both of the angles they meet	one diagonal bisects both of the angles it meets	diagonals are perpendicular to each other		
Square							
Rectangle							
Parallelogram							
Rhombus							
Kite							
Trapezoid
