Grading

20% homework 80% tests

Late work is accepted at my convenience. (I will accept late work with a verified excused* absence even if not convenient)

Example:
382/450 pts homework 84.9%
176/250 pts tests and quizzes 70%
 $0.2 \cdot 84.9 + 0.8 \cdot 70 = 73\%$

Things that can fly/float in the air

Blue Yellow

What do I mean by "blue" and "yellow"? Blue means "almost all blue" unless you qualify it ("partly blue" or "has some blue")

Where does the balloon go?

Without changing the set names, it goes in neither set
