

1. The idea of addition is to join two groups together and then group by tens to make a base 10 number. Show that by cutting and pasting the squares from the other page.

a. $15 + 8$

b. $36 + 29$

c. $14 + 7$

d. $25 + 38$

2. The idea of subtraction is to start with the minuend (total) and separate out the subtrahend which leaves the difference. Show how to separate the minuend by cutting the boxes into two groups, paste in and label the subtrahend and the difference.

a. $46 - 19$

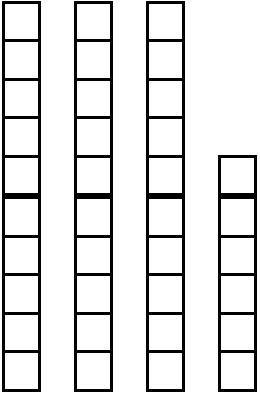

b. $42 - 18$

c. $51 - 29$

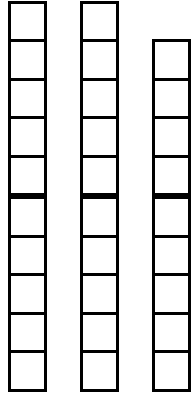

d. $63 - 15$ (show on the back)
